Communications would be complex for a long and somewhat technical document and the NDP Committee would be focusing on how to make that communication successful because a high response rate was important to show the external examiner.         9/2018       Parish Boundary Review- Currently SMBC is consulting on the terms of reference following the BCVRA petition seeking a Parish merger. It would be important that all residents were made aware of the full consultation when that took place later this year and were encouraged to express their view. JED expressed a view that residents should also put their views for ward via the SMBC link on the terms of reference. Jane to circulate those to the committee         10/2018       Pollution at the Well         • Severn Trent has found a pipe that is carry sewage that is discharging into ground near the Well. The nature of the pipe and source of the foul effluent is not known. Severn Trent to carry out more investigations.         • ASB confirmed that the Well and surrounding land is not technically owned by anyone and is unregistered land.         11/2018       Litter Pick – Scheduled for both Balsall Common and Berkswell village on 3 <sup>rd</sup> March in the morning. Precise details to be communicated via newsletter nearer the time. Thanks to Sphie Lock and Keith Tindall for organising it.         12/2018       Parish Fete and BBQ – Set for 16 <sup>th</sup> June         • It was agreed that the society would fund the printing of the brochure       KS/AS         13/2018       Open Gardens – 24 <sup>th</sup> June       KS/AS         • ASB and JE agreed to take signs down afterwards . they to organise       JE/M         14/2018       N
